One Source.

Infinite Solutions.

New Innovative **DUCTMATE** Product Solutions

Spiralmate® **Spiralmate** **Doublewall**

New factory complete double wall system

New factory installed double wall design sold as a complete connection and easily adjustable at connections, fittings, and gore elbow segments.

Page 16

DUCTMATE **PROflex™**

Proflex **Master Rolls**

Scrap Less, Save More

PROflex master rolls now available in various lengths, resulting in notable labor savings on every project.

Page 14

Cable Shark **Hang With Confidence**

Cable Shark CS125 and CS250 now available with time saving tools and accessories, making hanging duct easier than ever.

Page 30

Gecko Glue **Silver Totes**

Adhesive Efficiencies

For large insulation projects, the Gecko Glue Silver 275-gallon tote has you covered by reducing your inventory, material costs, and production interruptions.

IMPORTANT INFORMATION California Proposition 65

At Ductmate Industries we are working toward full compliance with The Safe Drinking Water and Toxic Enforcement Act of 1986 (CA Prop. 65). To meet CA Prop. 65 requirements, Ductmate has engaged all our raw material and component suppliers in order to identify any declarable substances in our products that would trigger labeling requirements or updated SDS.

To date, we have identified declarable substances in products that require additional labeling and/or updated SDS. Updated SDS documents can be found online at <https://ductmate.com/prop-65> for the products listed below. Prop 65 information is located in Section 15 of the document. These updated documents are also available on each individual product page on ductmate.com.

All Products Made From Galvanized Steel, PROseal, PROseal Spray, FIBERseal, EVERseal, EZseal, SOLVseal, Gecko Glue Products, 5511M, LagIt, and SLS

As you are undoubtedly aware, CA Prop. 65 is a dynamic regulation that frequently has substances added, new guidance documentation released, and is impacted by frequent changes to the case law due to ongoing litigation. Consequently, Ductmate Industries intends to conduct ongoing due diligence and invites you to inquire from time to time concerning updates and changes that might have impacted this declaration.

LIMITED PRODUCT WARRANTY

Ductmate warrants that the products in this catalog, when properly installed and maintained, will be free from defects in material and workmanship, and will comply with all written specifications made by Ductmate at the time of sale. Ductmate's warranty shall run for a period of one year from the date of manufacture.

Warranty Limitation

The warranty stated above is in lieu of all other warranties, express or implied, including but not limited to the implied warranties of MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Although Ductmate may have suggested the product, or provided written or oral advice to the Purchaser, it is the Purchaser's responsibility to test and determine the suitability of the products in this catalog for the intended use and purpose, and Purchaser and/or its customer assumes all risk and liability whatsoever regarding such suitability.

Limitation of Liability

In the event of a breach of the above warranty, Ductmate's sole obligation, and Purchaser's sole and exclusive remedy, shall be, at Ductmate's option, repair or replacement of any defective products, or refund of an applicable portion of the purchase price. Ductmate shall have no liability for costs of removal or reinstallation of the product. The Purchaser agrees that no other remedy, including but not limited to loss of profits, loss sales, injury to person or property, or any other special, incidental or consequential damages, shall be available to the Purchaser for any claim arising out of this Agreement, regardless of whether such claim is made in contract or in tort, including strict liability in tort. In no event will Ductmate be obligated to pay damages to the Purchaser in any amount exceeding the purchase price that the Purchaser paid to Ductmate for the allegedly defective product.

This catalog is printed using recycled and Sustainable Forestry Initiative (SFI) Certified fibers.

DUCTMATE REPUTATION & CERTIFIED QUALITY ASSURANCE

Every Ductmate product is specially designed and engineered to perform a specific function. Structural integrity, proven performance, and added value are built right in. Strict tolerances and high quality control standards are the fundamental principles in our manufacturing guidelines. We are also committed to providing the sheet metal industry with new cutting edge products and technology to increase your productivity and profits in this highly competitive industry.

ENGINEERING ASSISTANCE

Our engineering department will work with you to design and engineer the best possible solution to those difficult or unusual systems. Whether you're dealing with high winds, snow loads, excessive pressures, specialty alloys, or critical air systems, we've dealt with virtually every difficult and unusual duct application you may encounter.

ASSEMBLY AND INSTALLATION TRAINING

Using one of our connector systems for the first time? Have new or additional manpower for a project? Facing a "super tight" spec? Our technicians are available for comprehensive hands-on product training at both your shop and job-site upon request. We also offer detailed assembly and installation videos and manuals, all to help ensure that the system is installed correctly—right from the start!

DUCTMATE SOLID TECHNICAL SUPPORT

Answers to your questions or problems as they occur are only a phone call away. Our engineering and technical assistance department will back up their information with test results and technical data you need to solidify your position as the HVAC expert on-site. Whenever you have a difficult or critical HVAC project, We can provide the kind of technical assistance that can give you a strong competitive edge when you're bidding, fabricating, and installing. For those unusual, challenging, or downright difficult projects, Ductmate's trained specialists can back up your personnel in several key areas. We are committed to providing you with the quality and service you expect and deserve when using any Ductmate product.

Important Notes:

- Product & material availability chart is a reference guide only and availability, lead times and minimum order quantities may fluctuate or change without notice
- Due to the large number of model options available in each product category, not all models are available in special alloys. Please consult factory for suitable product substitutions
- Consult factory on large orders and projects
- Refer to product page for additional product information
- PVC coated Sandwich access door are available in uninsulated models only
- 24" x 18" Sandwich access doors are only available in galvanized and 316SS

DUCTMATE®

'25' '35' & '45'® SYSTEMS

TECHNICAL DATA

The characteristics of a particular duct connection or joint are usually referenced to the Sheet Metal and Air Conditioning Contractors National Association (SMACNA) Manuals. SMACNA encourages the use of new technology, but does not endorse proprietary products. The Ductmate '45', '35' and '25' Systems have been tested in accordance with SMACNA procedures with no external sealant employed. The tests reveal: the Ductmate '45' Systems are comparable to the SMACNA Class "K" transverse joint, the Ductmate '35' Systems are comparable to the SMACNA Class "J" transverse joint and the Ductmate '25' Systems are comparable to the SMACNA Class "F" joint.

Virtually no leakage at up to 10" WG positive pressure or down to 10" WG negative pressure. Consult Ductmate for static pressures exceeding these specifications. Complete test data is available upon request.

LIMITATIONS

The Ductmate '45' System is not recommended for applications with duct gauges heavier than 10 GA. or lighter than 22 GA. The Ductmate '35' System is not recommended for applications with duct gauges heavier than 16 GA. or lighter than 26 GA. The Ductmate '25' System is not recommended for applications with duct gauges heavier than 20 GA. or lighter than 26 GA.

COMPOSITION AND MATERIALS

The Ductmate Systems consist of the following components:

- Ductmate '45' Angle is roll-formed from 18 GA. galvanized steel with an integral sealant.
- Ductmate '35' Angle is roll-formed from 20 GA. galvanized steel, with an integral sealant.
- Ductmate '25' Angle is roll-formed from 24 GA. galvanized steel, with an integral sealant.
- Ductmate Corner Pieces inserted into the hollow web of the Ductmate Angle. See drawing on page 7 for corner styles.
- Metal Cleat is roll-formed from 20 GA. galvanized steel. (PVC Cleat is available upon request).
- Ductmate '45' VersaCleat is roll-formed from 22 GA. galvanized steel.
- Also available: optional Ductmate '45' bolt-on cleat, roll-formed from 11 GA. electroplate galvanized steel.
- Gasket is extruded butyl for use between mating flanges. (Neoprene gasket is available upon request).
- Corner Clips are 16 GA. galvanized steel. (Use of nuts and bolts optional: 3/8" x 1" for DCIIIB, 5/16" x 1" for Ductmate DC25 Corner).

DIMENSIONS

Refer to drawings on page 7.

APPLICABLE STANDARDS

Angle Steel: ASTM-A-653 G 60/90
Corner Steel: ASTM A-653 G 60/90
Mastic: Ductmate 5511M
Gasket: Ductmate 440™

TECHNICAL SERVICES

Detailed assembly and installation instructions, and videos showing step-by-step procedures, are available from the manufacturer and on the Ductmate website. Factory trained personnel are available upon request, at no charge to instruct new customers in the use of the Ductmate Systems.

GUARANTEES

All component parts of the Ductmate Systems are guaranteed against defective material.

DUCTMATE SNAP-ON CLEAT

PVC CLEAT*

Polyvinyl chloride (PVC) is an organic polymer derived from petroleum and salt.

Performance Properties:

- Relatively high ignition resistance:
Flash ignition 391°C/735°F
Self ignition 454°C/850°F
 - Low fuel contribution
 - Lack of flaming drips
 - High external heat necessary to maintain combustion
 - UL94-Passes
 - UL723 (ASTM E-84) Test Data:
Flame Spread: 10
Fuel Contribution: 0
Smoke Density: 10
 - Service Temp: +32°F to +150°F
 - PVC Cleat is used around perimeter of transverse joint.
- * Not recommended for outdoor applications. For applications involving chemicals, consult factory.

METAL CLEAT

DM® Metal Cleat is roll-formed 20 GA. galvanized steel for application around perimeter of transverse joint. (See installation manual for correct usage).

BOLT ON CLEAT

Ductmate Bolt-On Cleat is ideal for all flange applications including DM 25/35/45.

Ductmate Gaskets

Ductmate 440™ Butyl & Neoprene See pg. 53

ESTIMATING DUCTMATE '25' '35' & '45' COMPONENTS

FLANGES ESTIMATING FORMULA: Per Duct Size $[(W + H) \div 3] \times \#$ of Duct Sections.

Add Requirement For Each Size To Determine Total flange Needed.

Example: Duct size 40" x 30" @ 60 joints.

$[(40" + 30") \div 3] \times 60 = 1400'$ of Flange.

CORNERS: Approx. (1) corner for every (3 lf) of flange = $1400 \div 3 = 467$ (250 pcs/box)

CLEAT: Approx. (6") of cleat for every (4') of flange = $1400 \div 4 = 350$ (6" ea @ 250 lf/ctn or 500 pcs)

GASKETING: Approx. 1 lf per 2 lf of Flange = $1400 \div 2 = 700'$ (20 rolls @ 25' per roll or 500 lf per ctn)

SAMPLE ORDER:

Quantity	Part Number	Description	Total Required	Weight
(1) Bundle	D3515GA	Ductmate '35'	1500 ft.	1035 lbs.
(2) Box	D3BGA	No-Bolt Corners	500 pcs.	86 lbs.
(1) Box	D6CGA	6" Metal Cleat	500 pcs.	45 lbs.
(2) Box	440 3/16" x 5/8"	440 Butyl Gasket	1000 lf.	90 lbs

NOTE COMPONENT QUANTITIES WILL VARY WITH SIZE OF DUCT.

APPLICABLE STANDARDS

Angle Steel: ASTM-A-653 G 60/90
Corner Steel: ASTM A-653 G 60/90
Mastic: 5511M
Gasket: Ductmate 440

COMPOSITION AND MATERIALS

The W.D.C.I. Systems consist of the following components:

- W.D.C.I. 'J' Angle is roll-formed from 20 GA. galvanized steel, with an integral sealant.
- W.D.C.I. 'H' Angle is roll-formed from 22 GA. galvanized steel, with an integral sealant.
- W.D.C.I. Corner Pieces are inserted into the hollow web of the respective angle. See drawing below for corner styles.
- Metal cleat is roll-formed from 22 GA. galvanized steel. (PVC Cleat is available upon request).
- Gasket is extruded butyl for use between mating flanges. (Neoprene gasket is available upon request).
- Nuts & Bolts
3/8" x 1" for W.D.C.I. 'J'
1/4" x 1" for W.D.C.I. 'H'

TECHNICAL SERVICES

Detailed assembly and installation instructions, and videos showing step-by-step procedures, are available from the manufacturer and on the Ductmate website. Factory trained personnel are available upon request, at no charge to instruct new customers in the use of the W.D.C.I. Systems.

W.D.C.I. CLEAT

PVC CLEAT

Polyvinyl chloride (PVC) is an organic polymer derived from petroleum and salt.

Performance Properties:

- Relatively high ignition resistance:
- Flash ignition 391° C/735° F
- Self ignition 454° C/850° F
- Low fuel contribution
- Lack of flaming drips
- High external heat necessary to maintain combustion
- UL94-Passes
- UL723 (ASTM E-84) Test Data:
 - Flame Spread: 10
 - Fuel Contribution: 0
 - Smoke Density: 10
 - Service Temp: +32° F to +150° F
- PVC Cleat is used around perimeter of transverse joint. Not recommended for roof top applications.

METAL CLEAT

W.D.C.I. Metal Cleat is roll-formed of 22 GA. galvanized steel for application around perimeter of transverse joint. (See installation manual for correct usage).

EXAMPLE: **BN1GA**

Bullnosing	Size	Alloy
Example: BN BN = Bullnosing 10' Length 100' Bundles	Example: 1 1 = 1" 1.5 = 1 1/2" 2 = 2"	Example: GA GA = Galvanized S6 = 316 Stainless Steel

Estimating W.D.C.I. 'J' & 'H' System Components

FLANGES ESTIMATING FORMULA: Per Duct Size [(W + H) ÷ 3] x # of Duct Sections.

Add Requirement For Each Size To Determine Total flange Needed.

Example: Duct size 40" x 30" @ 60 joints.

[(40" + 30") ÷ 3] x 60 = 1400' of Flange.

CORNERS: Approx. (1) corner for every (3') of flange = 1400 ÷ 3 = 467 (250 pcs/box)

CLEAT: Approx. (6") of cleat for every (4') of flange = 1400 ÷ 4 = 350 (6" ea @ 250 lf/ctn or 500 pcs)

GASKETING: Approx. 1' per 2' of Flange = 1400 ÷ 2 = 700' (20 rolls @ 25' per roll or 500 lf per ctn)

SAMPLE ORDER:

Quantity	Part No.	Description	Total Required	Weight
(1) Bundle	WJ15GA	W.D.C.I. 'J'	1500 ft.	1095 lbs.
(2) Box	WJCGA	Carriage Bolt Corners	400 pcs.	109 lbs.
(1) Box	W6CGA	6" Metal Cleat	500 pcs.	50 lbs.
(2) Box	440 3/16 x 5/8	440 Butyl Gasket	1000 lf.	90 lbs.

NOTE: COMPONENT QUANTITIES WILL VARY WITH SIZE OF DUCT.

STRAP-PAK™ CORNERS

Available In TDC®, TDF® & Universal

Special Characteristics

Patented Strap-Pack magazines system is the most efficient means of loading Cornermatic corners into all automatic insertion machines.

- Fastest most efficient loading option available
- Reduces shop labor.
- Uniform Stack reduces jamming & machinery down time.
- Precision Stamped 16 ga. steel.
- 80 Corners per magazine / 400 case)
- 5 sleeves/master carton (400 corners)
- 40 boxes/pallet (16,000 corners)
- Non-Strap Packs 250 per / box
- Available in 8 alloys
- Designed for 3/8" carriage bolt

**SPIRALMATE CONNECTION
CONSISTS OF 2 FLANGE RINGS
AND 1 OUTER CLOSURE BAND**

SPIRALMATE OUTER CLOSURE RING
Cold-formed galvanized steel. Outer Closure Ring maintains the duct connection.

SPIRALMATE FLANGE RING
Flange is cold-formed galvanized steel with an integral mastic to form an air-tight connection with duct end.

INNER RING FOR DOUBLE WALL APPLICATIONS
Cold-formed galvanized steel Inner Ring is specially designed for use with SpiralMATE on double wall spiral pipe.

NEOPRENE GASKET TAPE

#AG2001

ALIGNMENT GRIPS

A modified vise grip to help you do a better job and save time.

SPIRALmate®

MONEY SAVING VALUE ADDED FEATURES

- QUICK & SIMPLE TO INSTALL
- SUBSTANTIAL REDUCTION IN LABOR & TIME
- AIR TIGHT
- NO ADDITIONAL SEALANTS REQUIRED
- CLEAN APPEARANCE
- USED AS AN ARCHITECTURAL FEATURE
- CAN BE INSTALLED ON-SITE
- INCREASES STRUCTURAL INTEGRITY OF DUCT
- PRICE COMPARES TO ANGLE RINGS OR COUPLERS REQUIRING SEALANT
- FLANGES ADJUST TO MODERATE PIPE DIAMETER VARIATIONS
- ONE-BOLT CLOSURE BAND CONNECTION
- WORKS ON DOUBLE-WALL PIPE
- EASY ALIGNMENT OF FITTINGS
- FITS SPIRAL SEAM AND MOST RIBBED PIPE

**Duct Sizes From 8" - 72" in 2" Increments Standard
(1" Increments And Sizes Larger Than 72" Consult Factory)**

* For Large Profile sizes 30" - 38", consult factory for availability

Ventmate

DESIGNED FOR UNDERGROUND MINING SYSTEMS

- FAST, SAVES TIME
- AIR TIGHT, EFFICIENT
- SIMPLE AND EASY TO INSTALL
- NO ADDITIONAL SEALING REQUIRED
- CONSISTENT CONNECTIONS

Press-On Inner Rings
See Page 18

SPIRALMATE® SYSTEM SPECIFICATIONS

TECHNICAL DATA

The characteristics of a particular connection or joint are usually referenced to the Sheet Metal and Air Conditioning Contractors National Association (SMACNA) Manuals. SMACNA encourages the use of new technology, but does not endorse proprietary products. The Spiralmate Duct Connector System has been tested by Professional Service Industries, Inc., a division of Pittsburgh Testing Laboratories, with test results as noted. No external sealant was used and the certified test results reveal:

Virtually No leakage at up to 18" WG positive pressure or down to 10" WG negative pressure

Testing was performed on a single-wall connection. Complete test data is available upon request.

DIMENSIONS

Refer to Cross Section on previous page.

LIMITATIONS

The Spiralmate Small Profile Round Duct Connector is not recommended for applications with spiral duct gauges heavier than 20 GA or lighter than 28 GA. The Spiralmate Large Profile Round Duct Connector is not recommended for applications with spiral duct gauges heavier than 16 GA or lighter than 28 GA. Both Spiralmate Profiles will accept 12 GA longitudinal duct seam. Some duct manufacturers may weld on the seams to keep them from falling apart once the duct is manufactured. These welds may need to be ground down so they can fit the pocket. This will not compromise the duct seam as long as the spiral flanges are attached just after grinding.

TECHNICAL SERVICES

Detailed assembly and installation instructions & videos showing step-by-step procedures are available from the manufacturer and are sent to all new customers. Factory-trained personnel are available upon request at no charge to instruct new customers in the use of the Spiralmate System

COMPOSITIONS & MATERIALS

The Spiralmate Round Duct Connector Systems consist of the following components:

- Two mating Round Duct Connector Flanges of roll-formed galvanized steel with an integral sealant. Large Profile 20 ga., Small Profile 22 ga.
- A Closure Ring of roll-formed galvanized steel. Large Ring 18 ga., Small Ring 20 ga.
- Mastic: Ductmate DM5511M
- Gasket: Neoprene and Ductmate 440

COMPOSITIONS & MATERIALS FOR THE NEW PRESS-ON INNER RING

The Spiralmate Round Duct Connector Systems consist of the following components:

Two Inner Rings roll-formed from galvanized steel with PSA tape:

10" to 48" - 18 ga.

49" & up - 16 ga.

QUICKSHIP PROGRAM available, call for details.

*** Lead time on PVC coated is 3½ weeks for the coil to arrive at our plant. Production and shipping still have to be factored in.

NOTE: SPIRALMATE CONNECTOR SYSTEM COMES COMPLETE WITH 2 FLANGES AND 1 CLOSURE RING.

ADDITIONAL FLANGE RINGS AND CLOSURE RINGS ALSO SOLD SEPARATELY. **Part Numbers (CRH**GA and DF**GA)**

NEOPRENE GASKET IS RECOMMENDED AROUND THE CIRCUMFERENCE OF THE SPIRALMATE FLANGE.

SMALL AMOUNT OF 440 BUTYL GASKET REQUIRED AT BREAK IN FLANGE. SEE GASKETING FOR SPECIFICATIONS.

GASKET CALCULATION: DIAMETER + 1-1/2"X3.1415=(LI ÷ 12 PER JOINT) X (NUMBER OF RELATED SIZES)=SIZE TOTAL

TOTAL FOOTAGE DETERMINED BY ADDING ALL SIZES TOTAL.

#NUTRUNL - Special long socket for large profile Spiralmate Closure Ring

#NUTRUNS - Special long socket for small profile Spiralmate Closure Ring

ROUND DUCT CONNECTOR SYSTEM

PRESS-ON INNER RINGS

Patent # 10,533,689

SPECIAL CHARACTERISTICS

- Fits Spiralmate, Ventmate, Econoflange and virtually any round flange connection system
- Double sided high strength PSA tape to adhere
- Simplifies installation of double wall duct
- Available in 1" and 2" rings
- Inner-ring adjusts to fit the variations in pipe diameter
- Will structurally withstand 10" w.g. positive pressure
- Eliminates welding or fasteners
- Can be installed on-site

WELD-ON INNER RINGS

SPECIAL CHARACTERISTICS

- Fits Spiralmate, Ventmate, Econoflange and virtually any round flange connection system
- Available in 1" and 2" rings
- Inner-ring adjusts to fit the variations in pipe diameter
- Will structurally withstand 10" w.g. positive pressure
- Available in specialty alloys

16 Gauge Steel

ECONOflange Split

Designed with a split to
accommodate minor deviations of
pipe diameter.

ECONOflange Welded

Now available without split.

ECONOflange 1" Double Wall

ECONOflange 2" Double Wall

- Simple installation process
- Available in sizes 8" - 72"
- Can be installed on-site
- in standard 2" increments

ECONOflange™ OVAL

Oval Duct Connection System

Basic Use

The ECONOflange Oval connection system was designed as a cost effective oval connection, all while remaining efficient and easy to install.

Special Characteristics

- End Sets shipped complete with connectors attached
- Modular design reduces inventory and allows for manufacturing flexibility
- Cut straight sections on-demand for "exact" fit
- Bolted connectors make installation quick, safe, and easy

Specifications

- Flange Construction:
 - 18 Gauge on sizes 48" & below
 - 16 Gauge on sizes 50" & Up
- Hot Dipped Galvanized Steel
- Gasket: Ductmate Neoprene
- Pre-punched holes for fast connections
- No special tools required
- Simple installation process, can be installed on-site
- Available in sizes 8" - 56" in standard 2" increments
- Available in specialty metals
- Inner rings available for 1" and 2" insulation

Cold-formed, hot-dipped galvanized steel

48" & Under:
18 Gauge Steel
50" & Up:
16 Gauge Steel

Order in 10' or 20' lengths. Assembly required or straights must be assembled to end sets 	<ul style="list-style-type: none"> GA=Galvanized GN=Galvannealed AZ=Aluminized PVC=PVC COATED**

* Larger sizes also available

** Lead time on PVC coils is 3½ weeks for the coil to arrive at our plant. Production and Shipping times still have to be factored in.

Example:

Duct Dimension 68" x 20"

Major Dimension 68"
 (minus) Minor Dimension - 20"
 (minus) 6¼" - 6¼"
 (equals) Straight Econoflange
 Oval Angle Length 41¾"

Packaging Information

The ECONOflange Oval connection system consists of semicircular end flange sections and straight flange. Straight flange is sold in 20' lengths. The semi-circular end pieces are sold individually with the connector pieces welded onto the ends. (One oval frame consists of two lengths of straight flange and two semi-circular end pieces.

VALUE ADDED MONEY SAVING FEATURES:

- AIRTIGHT
- NO ADDITIONAL SEALING
- TESTED TO OVER 30" W.G. POS & NEG
- NO PROTRUSIONS IN AIRSTREAM
- FOR ROLLED OR SPIRAL DUCT
- REASSEMBLES WITHOUT COMPROMISING SEAL
- DESIGNED & GASKETED FOR FOOD PROCESSING, DUST COLLECTION, EXHAUST, HIGH-TEMP & STANDARD H.V.A.C. SYSTEMS
- ELIMINATES LENGTHY SHUT DOWN TO SEAL EXISTING SYSTEMS
- SPECIAL ALLOYS AVAILABLE
- NEW DOUBLE-BOLT CLOSURE ENSURES BETTER STABILITY THROUGH LARGER DUCT DIAMETERS

APPLICATION

For air-conditioning, ventilation and dust collection systems.

INSTALLATION INSTRUCTIONS

1. Peel backing off template and apply to duct in desired location.
2. Opening can be cut with hand-held plasma cutter or by conventional methods.
3. Insert door into opening at an angle and tighten knobs.
4. Do not overtighten knobs or wing nuts.

OBSERVATION ACCESS DOOR

Spec Sheets
Available here

DOUBLE PANED OBSERVATION ACCESS DOOR

16" x 12" Sandwich® Door With 8" x 8" View Port

Solid Door With Simple Installation

This door was designed specifically for hospitals, clean rooms, pharmaceuticals, and laboratories to eliminate danger of dust contaminating ductwork while inspecting in-duct smoke detectors, UVC emitters, fire and smoke dampers, and humidifiers.

- Double Pane Safety Glass
- Extra Large 8" x 8" Viewport
- Available Insulated or Uninsulated
- Tested to 10" W.G. positive/negative pressure with minimal leakage noted
- Also Available In Stainless Steel

In order to use the minimum duct height, the door must be installed with its longest dimension running horizontally along the length of the duct. If the minimum duct height is used, the top of the opening must be 2" from the top of the duct. For every inch over the minimum duct height, the opening can be lowered 1" from the top of the duct.

Unlike the ULTIMate sandwich style door, the ULTIMate II weld on door requires minimal additional clearance. The duct only needs to be large enough to accommodate the frame and satisfy the NFPA 96 Standard. Although the frame only extends 1" past each side of the opening, the NFPA 96 standard requires a minimum of 1.5" clearance between the opening and all seams or edges. Therefore, a minimum of 1.5" clearance is recommended on each side of the opening. In order to use the minimum duct height, the door must be installed with its longest dimension running horizontally along the length of the duct.

Grease Duct Access Door

The door frame extends 1" around the opening; therefore, a minimum of 1" clearance is required on either side of the welded seam. Cutting the opening too close to the welded seam may lead to leakage.

SQUARE FRAMED ACCESS DOORS

STANDARD CHARACTERISTICS OF DUCTMATE SQUARE FRAMED ACCESS DOORS

- DOUBLE GASKETED
- PRECISION DESIGNED AND MANUFACTURED
- INSULATED
- AVAILABLE IN SPECIALTY METALS & RECTANGULAR SIZES

**CUSTOM SIZES
FROM 6x6 TO
36x36**

TECHNICAL INFORMATION

- Meets SMACNA HVAC Duct Construction Standards
- 1" High density fiber glass insulation board made from inorganic glass fibers bonded with renewable bio-based materials (FHC25/50).
- R Valve 4.2.
- Door consists of two, 24 gauge galvanized steel panels, mechanically locked together.
- Meets SMACNA requirements for low pressure doors (3" w.g. positive/3" w.g. negative).
- Closed cell cross-linked polyethylene gasketing, with a service temperature range of -70°F to 175°F, is bonded to the inside of both the Dovetail frame and Press-On frames, and also to the outside of the Dovetail frame only.
- Double-sided adhesive gasket: closed cell cross-linked polyethylene is UL 94HF1 listed with a temperature range -110°F to 158°F and is bonded to the outside of the Press-On frame only for easy installation to metal ductwork.
- Frames measuring 6" x 6" to 12" x 12" are manufactured from 24 gauge galvanized steel. Frames measuring 14" x 14" to 24" x 24" are manufactured from 22 gauge steel.
- Dovetail frames have an improved design for easy installation on Metal Ductwall, 1" Duct Board or 1 1/2" Duct Board.*
- Hinged Models come with full length piano hinge secured to both the door and frame.
- All cams are manufactured from 16 gauge galvanized steel and secured to the door with a rivet.
- All latches are manufactured from 20 gauge galvanized steel and securely fastened to the frame.
- All Hinge and Cam Doors available with additional Cam Locks*
- All Cam Doors available with optional Chain*

* Consult Ductmate for ordering information

HURRICANE AIR BRACE™

Direct Mount Hanging Bracket For Condenser Units, Heat Pumps, and Other Equipment.

Packing List:

- | | |
|----------------------------------|----------------------------------|
| 1. (1) Side Bracket, Right | 8. (4) 1/2"-13 Lock Nut |
| 2. (1) Side Bracket, Left | 9. (4) 1/2"-13, 1" Long Bolt |
| 3. (1) Top Cross Brace | 10. (8) 1/2" Washer |
| 4. (1) Front Cross Brace | 11. (14) 1/4"-20, 5/8" Long Bolt |
| 5. (2) Mounting Bracket | 12. (28) 1/4" Washer |
| 6. (2) Support Bracket | 13. (14) 1/4"-20 Lock Nut |
| (For 45" and 55" Air Brace Only) | 14. (12) #14 Tek Screw |
| 7. (6) Strap | |

Note: The enclosed strapping is not needed for installation not requiring hurricane restraints.

Compare the Air Brace to Conventional Methods

- Rugged structural grade steel construction
- Tested for use in hurricane regions
- Meets the most stringent building codes!
- Available in stainless steel type 304 (Hardware included)
- Engineered product to determine allowable weight loads
- No leveling of ground or waiting for final grade
- Right and left brackets are rounded as an added safety factor
- Provided individually packaged in a sturdy box
- Reduced chance for air blockage
- No cracking, chipping, or decaying
- Bracket supports are a true 90° angle
- No need for shovels, gravel, or block
- 10 Gauge mounting brackets are precision punched for accurate spacing every time
- Includes 6 hurricane straps (1" x 6" x 16 ga. galvanized G90)
- Lightweight--transports easily
- Assembles and mounts in minutes
- Perfect for low-lying and flood-prone areas
- Certified for lateral and uplift wind pressure
- Designed to meet Florida building codes

DUCTMATE TRAPEZE DUCT HANGER

DESCRIPTION

Pre-punched channel section for supporting rectangular or oval ductwork.

SPECIAL CHARACTERISTICS

- 18 gauge galvanized, 20' lengths 2" high x 1-1/2" wide. Oval holes punched 2" on center.
- Easy to cut, light in weight, low in theft
- Neat professional appearance
- Eliminates the hard to cut and punched angle iron, and painting of same, when applicable. Nothing is done in the shop, ship directly to jobsite for immediate use.
- Highly competitive in pricing to 2"x2"x1/4", 2-1/2"x2-1/2"x1/8", 2"x2"x3/16" black angle iron, galvanized iron, or unistrut when all is considered.
- Versatile enough to standardize, thus possibly replacing several other types of hangers, reducing inventory cost.

Holes can be oriented up or down.

INSTALLATION INSTRUCTIONS

1. Cut trapeze duct hanger to size.
2. Slide all thread through pre-punched oval holes. Slide on washer (included with each bundle), tighten nut.
3. Space hanger rods according to load chart below:

TRAPEZE LOAD CHART		
L	d=2 inches P (lbs)	*d-6 inches P (lbs)
18"	1100	850
24"	1100	850
30"	1100	840
36"	1100	830
42"	1100	810
48"	1100	780
54"	1100	735
60"	1100	680
66"	1100	600
72"	1100	520
78"	680	400
84"	190	275
96"	---	---
108"	---	---

L = Distance between hanger rods.
d = Distance between hanger rods and duct wall. Above tables assume duct is centered between hangers.
P = Total weight of duct including reinforcements, connections, insulation, etc. NOTE: For d greater than 2 inches, the 6 inch table MUST be used.

See page 5.14 fig. 5-6 of the 2005 SMACNA HVAC Duct Construction Standards - metal and flexible for calculation method.

* This table is similar to table in SMACNA in that it assumes a 6" space between duct and hanger rod.

ISOLATION PAD

Heavy neoprene pads can be inserted into the hanger profile if sound insulation is required.

Beam clamp fastens hanger profile to structural members up to 1 1/2" thick.

BEAM CLAMP ASSEMBLY*

See Ductmate Website For Load Chart

PACKAGING INFORMATION

VISUALLY APPEALING DUCT HANGERS No TOOLING OR FABRICATION REQUIRED

Please Contact Ductmate About Specialty Metal Requests

ISOLATION DUCT HANGER

The sturdy tension bracket has a much greater load-bearing capacity than the corresponding threaded rods.

The rubber padding which prevents vibrations from being transmitted is 1-3/4" (45 mm) x 2" (50 mm) and 2-3/16" (55 mm) thick.

RUBBER PREVENTS VIBRATION NOISE TRANSMISSION FROM AIR DUCTS AND OTHER VENTILATION DEVICES TO PARTS OF THE BUILDING.

- For 3/8" Threaded Rod
- Overall Length 5-7/8" (150mm)
- Max. Width 1-13/16"x1-13/16" (45x45mm)
- Load-Bearing Capacity: 1100 lbs (500 kg) 680 lbs (308 kg) is the maximum allowable load with 3/8" rod.
- Packing Unit: 50 Pcs./Case
@ 37 lbs (17KG)/Case

Technical Information:

- Finish/Coating: Zinc Electroplated to 10-15 Microns
- Rubber Type: Styrene-butadiene
- Durometer Hardness: 75-85 Shore Hardness
- Max Temp: 194° F
- Min Temp: -22° F

Part No. DM2723SI

ROUND DUCT HANGER

EASYROD TIE ROD CONSTRUCTION

TIE ROD CONSTRUCTION HARDWARE/EASYROD

A simple, strong component system to make the installation of tie rods faster. Can be used for both positive and negative pressure.

NEW MAGNETIC TIE ROD ANCHOR SET

Innovative device to help install the bolt anchor into pipe. Heavy cast steel with magnetic tip insures a fast, strong friction fit.

- Pull out strength of 600 lbs for 1/2" and 900 lbs for 3/4"
- Quickly inserts into ductwork
- Can be used for both Positive and Negative pressure

PART NO.	DESCRIPTION	PACKING UNIT	UNIT WEIGHT
EZ50	BOLT, WASHER, INSERT FOR 1/2" EMT CONDUIT	250 SETS	9 LBS (4.1 KG)
EZ75	BOLT, WASHER, INSERT FOR 3/4" EMT CONDUIT	250 SETS	10 LBS (4.5 KG)
EZTOOL	MAGNETIC TIE ROD ANCHOR SET	1 EA.	2 LBS (.9 KG)

EASYSTUD TIE ROD CONSTRUCTION

- Pull out strength of 600 lbs
- Can be easily installed by one person
- Quickly inserts into ductwork
- Can be used for both Positive and Negative pressure

PART NO.	DESCRIPTION	PACKING UNIT	UNIT WEIGHT
ES50	INSERT WITH THREADED ROD ATTACHED, WASHER, NUT, FOR 1/2" EMT CONDUIT	250 SETS	10.5 LBS (4.1 KG)
ESTOOL	INSERTER TOOL FOR EASYSTUD	1 EA	2 LBS (.9 KG)

REINFORCEMENTS

DUCTMATE "Z-BAR" REINFORCEMENT

FEATURES:

- Advanced Design
- Cost Effective
- Light Weight
- Strong
- Easy To Use

SPECIFICATIONS:

Precision roll-formed from 24 gauge galvanized steel.
Classification Conforms to SMACNA "H" equivalent.

RECOMMENDED USE:

Intermediate reinforcement for rectangular duct. Fasten within 3/4" of vertical duct wall, then 8" on center.

PACKAGING:

Part No.	Description	Weight	Length/Bundle
DLST15GA	"Z-BAR"	.67 lbs/ft	(75) 20' pcs/1500' bdl.

NOTE: CONSULT MATERIAL AVAILABILITY CHART FOR SPECIALTY ALLOYS

RETAINING ANGLE FOR EXTERNAL REINFORCEMENT & FRAMING FIRE DAMPERS

- Cold formed galvanized angle
- SMACNA E class rigidity (may be used for duct reinforcement)
- Available in 14, 16, and 18 gauge
- Optional pre-punched 7/32 holes (one or both sides) for faster fastening of angle to sleeve
- Available in 10' and 20' lengths; 12' lengths also available in certain sizes/gauges
- Available in 1.5" and 2"
- Additional angle and bundle sizes, gauges, and materials available - contact Ductmate for availability

**MEETS
ASHRAE,
SMACNA
and UMC
STANDARDS**

PRO rail[®] SELF-LOCKING RAIL SYSTEM

UNIQUE FRICTION-FIT FEATURES & BENEFITS

- ASSEMBLES QUICKLY AND EASILY
- SUBSTANTIAL REDUCTION IN LABOR
- SUPERIOR PULL-OUT STRENGTH / TESTED TO 15" W.G.
- SECURELY LOCKS VANE & RAIL TOGETHER
- TABS CONFORM TO SMACNA'S SPACING STANDARDS
- NO MECHANICAL FASTENERS REQUIRED
- NO SPECIAL TOOLS NEEDED
- VANES ARE AUTOMATICALLY CENTERED AND ALIGNED
- EXTENDED TABS INCREASE VANE RIGIDITY RESULTING IN LESS NOISE & VIBRATION
- WORKS ON STANDARD 2" & 4" DOUBLE WALL AND ACOUSTICAL VANES
- MAGNETIC TEMPLATES AVAILABLE TO EASE FASTENING RAIL TO DUCTWALL
- INSTALLATION LITERATURE AVAILABLE FOR REDUCING ELBOWS, OFFSETS, ETC.
- AVAILABLE FOR DOUBLE WALL VANE ONLY
- 4" ACOUSTICAL NOISE REDUCING TURNING VANE FOR SYSTEMS REQUIRING QUIET OPERATIONS

Tab Spacing: Conforms to SMACNA Standards

- 2" - 2 1/8"
- 4" - 3 1/4"

ORDERING INFORMATION

EXAMPLE: 2PRGA24

PRORAIL SIZE	ALLOY	GAUGES
Example: 2PR 2PR = 2" PRORAIL 4PR = 4" PRORAIL	Example: GA GA = GALVANIZED AZ = ALUMINIZED GN = GALVANNEAL AL = ALUMINUM S4 = 304 STAINLESS BI = BLACK IRON S6 = 316 STAINLESS PVC = PVC COATED	Example: 24 22 = 22 GA 24 = 24 GA

PACKAGING INFORMATION

ITEM	PACKAGING QTY	WEIGHT (lbs/ft)	
		22 GA	24 GA

PRO[®]seal

PROseal is a premium water based high-velocity duct sealant.

- Indoor/outdoor grade
- For applications up to 15" WG
- Low brush drag & spreadability
- Permanently seals metal duct systems
- Highly crack resistant
- Remains flexible
- Excellent UV, flexibility, mold resistant, & water resistant properties
- Paintable with latex based paint
- Will not drip or sag
- Mild odor
- UL 181B-M Listed & UL 723 Classified
- LEED[®] Compliant
- Meets all applicable EPA Method 24, CDPH, and SCAQMD standards
- Qualifies for LEED[®] Credit EQ 4.1
- Conforms to requirements of NFPA 90A & 90B
- Manufactured by S.M.W.I.A. Local 12

PROseal[®] Spray

PROseal Spray is a premium water based high-velocity duct sealant that can be applied using a wide range of sealant application equipment.

- Tremendous labor savings
- Indoor/Outdoor grade
- For applications up to 15" w.g.
- UL 181B-M listed & UL 723 classified
- LEED[®] Compliant, meets all applicable SCAQMD standards
- Excellent UV, Flexibility, & Mold Resistant Properties
- Remains flexible
- Excellent adhesion to metal
- Will not drip or sag
- Low shrinkage
- Non-Flammable
- Mild odor
- Conforms to requirements of NFPA 90A & 90B
- Paintable with latex based paint
- Manufactured by S.M.W.I.A. local 12

SOLVsealTM

NEW! LOW VOC FORMULA

SOLVseal is a premium solvent based high velocity duct sealant based on a blend of unique synthetic elastomers, select hydrocarbon resins and minerals. This blend results in a superior product that is unequaled in performance.

- UL Classified
- Low VOCs
- For applications up to 15" WG
- Permanently flexible
- Fast drying
- Exceptional workability
- Will not drip or sag
- High water resistance
- Low brush drag
- Excellent spreadability
- Minimal shrinkage
- Superior sealing strength
- Conforms to the requirements of NFPA 90A and 90B
- Mildew resistant

Product must ship as
a hazardous material

DUCT LINER ADHESIVE

Spec Sheets
Available here

Gecko Glue™ Gold is a versatile, easy-to-use, premium water-based duct liner adhesive. Gecko Glue™ Gold works effectively using a variety of application methods and dries faster than typical water-based adhesives to bond duct liner insulation with sheet metal.

Gecko Glue™ Gold can be sprayed and dripped on coil lines, roll-applied through roto-bonders, sprayed off line, and manually rolled or brushed on.

- Spray, drip, roto-bond or manually apply
- Water-based adhesive
- Fast tacking
- Solvent free
- Non-flammable in wet and dry states
- UL Classified
- Wipes clean with water
- Exceptional coverage
- LEED® Compliant, meets all applicable EPA Method 24 and CDPH standards
- Conforms to requirements of NFPA 90A and 90B

GECKOSILV275W	275 Gal - White	1 - 275 Gal tote @ 2300 lbs/tote

- 1 tote = 5 drums
- Reduces machine down time and storage area
- Reduced cost vs 5 drums
- Ideal for large insulation projects
- Less overall material cost & waste = More Savings!
- Less inventory, material handling, change over & down time = More production, Safety & labor Savings!
- Less drum disposal = More environmentally friendly!
- Protective Gaylord Bin makes material handling safe & easy.
- Gaylord Bin is reusable and ideal for storing / shipping products to jobsite.
- Compatible with all coil lines and spray systems
- Easily converts from drums to totes and back (no special fittings required)

Gecko Glue™ Concentrate is Ductmate's patented duct liner adhesive formula available as a 54 gallon mix. premium water-based duct liner adhesive. Gecko Glue can be mixed on demand by simply adding water to the ingredients and mixing with a custom made, highly efficient docking station system.

- Spray, roll, or brush applications
- High performance water-based adhesive
- Good wet and dry tack
- Enhanced shelf life
- High resistance to microbes
- Non-flammable in wet state
- Easy to ship and store
- On demand, quick and simple to mix
- Eliminate drum disposal cost - one drum and done
- Non-webbing when sprayed
- Environmentally friendly

ORDERING INFORMATION

GMMIXERASSY - Assembly includes all mechanical equipment needed for the mixing process*. Consists of:

DOCKING STATION - (1) station

GMDRUMASSY - (1) 55 gallon drum with vortex mixing blade

GMSPANNERA - Spanner tool

GMHOSEHOOKASSY - Brass water connector

GMSCRAPER - (2) Stainless steel wiping blades

GECKOM54W - Mixes (1) 54 gallon drum of adhesive and contains: (6) tubes liquid concentrate and (2) bags of PowerPack

GECKOPIGMTBLK - (4) 8 oz. jars of black pigment (optional - if black color is desired)

GDDRUMASSY - Drum only with vortex mixing blade inside (if a second drum is desired to go with GMMIXERASSY)

*some items can be ordered separately as additional parts

LAG-IT™

LAG-IT IS A FAST, COST EFFECTIVE MEANS FOR SEALING THE EDGES AND TEARS IN DUCT INSULATION

- Encapsulates fibers
- Repair liner tears
- Heavy-duty water-based formula
- Water and UV resistant
- Low odor
- Crack and peel resistant
- Tough and permanently flexible
- UL Listed/UL Classified
- High-strength and durability
- Sag resistant
- Non-flammable in wet state
- Exceptional coverage
- Will not discolor over time
- LEED Compliant - meets all applicable EPA Method 24 and CDPH standards

SUPER LINER SEAL™

SLS QUICKLY AND EFFICIENTLY SEALS THE SURFACE OF DUCT INSULATION, VIRTUALLY ELIMINATING THE PROBLEM OF AIRBORNE FIBERS

- Flame and moisture resistant
- Exceptional coverage
- Good dry time
- Durable finish
- LEED® Compliant - meets all applicable EPA Method 24 and CDPH standards
- Wipes clean with water
- Antimicrobial coating
- EPA registered biocide package
- Ideal for clean air applications like hospitals, schools, etc.

DUCT LINER ADHESIVE

QUICK-STICK™ HS

HIGH STRENGTH
DUCT LINER ADHESIVE

Spec Sheets
Available here

DESCRIPTION

QuickStick HS is a nonflammable and high strength single application duct liner adhesive with fast dry time. With a strong hold, the QuickStick line of adhesive it is ideal for all forms of HVAC insulations (fiberglass, polyester, and elastomeric and other substrates like plywood).

BASIC USE

Provide a high tack nonflammable duct liner adhesive for all forms of HVAC insulations with great coverage.

SPECIAL CHARACTERISTICS

- Nonflammable
- Quick Tack With Flexible Hold
- Repositionable and Low Odor
- VOC Free
- Less weight per tank than competitors adhesives

APPLICATION

1. Attach spray gun to hose and then hose to canister.
2. Be sure all surfaces are clean and free of grease, dirt, dust, etc.
3. Hold applicator perpendicular to substrate, 6-10 inches away.
4. Apply adhesive directly to duct wall and/or the open-cell duct liner insulation to be mated at 80-100% coverage. Spraying both surfaces will result in a stronger, more permanent bond.
5. Allow to dry until adhesive does not transfer to fingertips when touched before mating substrates.
6. Apply as much even pressure as practical to ensure bond.
7. Ductmate recommends using our spray gun with a 9501B Spray tip

CANISTER SYSTEM USE

USE ONLY IN WELL VENTILATED AREA

Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling.

When hose is connected, keep canister valve open and hose pressurized at all times. Do not disconnect the hose until ready to connect to new canister. Release pressure in hose before disconnecting from canister.

STORAGE AND HANDLING

Adhesive must be stored above 60F, but below 120F. In cold weather, store off floor in a heated area. Do not store in direct sun or at consistently high temperatures as container may burst. Keep away from heat, sparks and open flame. Keep container tightly closed. Keep only in the original container. If you choose to leave the hose and spray gun on the canister, leave the canister valve in the open position. Do not disconnect the hose/gun from the canister. Close and lock the spray gun.

To change or disconnect canister: Turn canister valve to the off position, spray out remaining adhesive from the hose, disconnect the hose and spray gun from the canister. Reconnect the hose and spray gun to a new canister of adhesive and turn the canister valve to re-pressurize. Or if you are NOT connecting to a new canister, connect hose to canister of cleaner (see paint store for products) and spray liquid out until clear which will indicate the hose/gun is clean.

Available in 7L and 22L disposable tanks or custom orders of 108L and 216L in returnable tanks.

DUCT LINER ADHESIVE

Spec Sheets
Available here

DESCRIPTION

Quick-Stick CA Aerosol Can is a quick tack, single application duct liner adhesive designed to bond porous substrates while maintaining a high level of tack. The aggressive nature of this high build pressure sensitive adhesive also makes it suitable for bonding foams, metals and wood.

BASIC USE

Provide a high tack Methylene Chloride free California SCAQMD 1168 Rule Compliant duct liner adhesive for all forms of HVAC insulations including fiberglass, polyester and elastomeric, with great coverage.

SPECIAL CHARACTERISTICS

- Quick Tack, Permanent Bond, Self-Contained, Disposable System
- Methylene Chloride Free
- California SCAQMD 1168 Rule Compliant
- Low VOC, No Ozone depleting substances
- HAPS Free (Hazardous Air Pollutants)

DIRECTIONS FOR USE:

1. Be sure all surfaces are clean and free of grease, dirt, dust, etc.
2. Hold applicator perpendicular to substrate, 6-10 inches away.
3. Apply adhesive to one or both surfaces to be mated at 80-100% coverage. Spraying both surfaces will result in a stronger, more permanent bond.
4. Allow to dry until adhesive does not transfer to fingertips when touched before mating substrates.
5. Apply as much even pressure as practical to ensure bond.

STORAGE AND HANDLING:

USE ONLY IN WELL VENTILATED AREA

Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling.

Adhesive must be stored above 60°F, but below 120°F. In cold weather, store off floor in a heated area. Do not store in direct sun or at consistently high temperatures as container may burst. Keep away from heat, sparks and open flame. Keep container tightly closed. Keep only in the original container.

Ductmate System Gaskets

DUCTMATE 440™ BUTYL GASKET

Ductmate 440 is a non-skinning, non-drying synthetic polymer based sealing tape, capable of withstanding joint movement without cracking.

Ductmate 440 is also available in 2" x 2" and 3" x 2" patches. Perfect for covering the critical points in the corner of a 4 bolt connection. Optional corner patch can be used on "ALL" 8 corners in conjunction with continuous piece in lieu of standard gasketing method.

EPA-registered biocide package that prevents the growth of mold, mildew, and fungus.

PROGUARDTM

- Heavy-Duty grade for superior performance
- Standard grade for light applications
- High-tack and low-tack adhesive coating
- Leaves no sticky residue on ductwork
- Elongation up to 600%
- Excellent strength with convenient pliability

**BULK
PRICING
AVAILABLE**

ProGuard protective film combines the latest in adhesive and plastic technology to effectively and economically protect ductwork from contamination.

ProGuard Heavy-Duty grade uses dual-film polyethylene for high strength while reducing material weight. The result is an extremely puncture-resistant light-weight film, providing greater protection for ductwork and less plastic film into the waste stream. ProGuard Heavy-Duty grade's tacky non-residue adhesive grabs hold of metal edges, reducing overlap waste.

TECHNICAL INFORMATION

Colors:	Blue and Clear
Adhesion:	Adheres to Galvanized, Stainless Steel, Galvannealed, Aluminum, PVC Coated, Aluminized, and Black Iron.
Type:	Polyethylene
Shelf Life:	For best results use within 1 year of purchase
Elongation:	Heavy Duty Grade: 600% Standard Grade: 325% MD
Break Strength:	Heavy Duty Grade: 13.1 lbs/in (5.9 kg/mm) Standard Grade: 12.6 lbs/in (5.7 kg/mm)
Indoor/Outdoor:	Stands up to the rain, snow, and sun
UV Resistance:	Good
Adhesive:	Acrylic. Does not leave sticky residue on ductwork after removal
VOC Content:	0 g/L

WELD PINS

DESCRIPTION

Ductmate Weld Pins are used to permanently secure insulation to the inside of sheet metal ductwork. Ductmate Weld Pins are designed to work with all the standard resistance welding equipment.

RECOMMENDATIONS

All equipment should be well maintained and operated within the machines's specifications. The first time Ductmate weld pins are used on a new machine, it is recommended that the user examine the first fifty welds for contact and strength. Adjustments may need to be made to the machine's electrical current before a satisfactory weld can be achieved.

Fastener Size	Recommended For
1/2"	1/2" Insulation - All Densities
3/4"	1" Insulation - 1 1/2 lb. Density
1"	1" Insulation - 3 lb. Density
1 1/8"	1" Insulation - 4-6 lb. Density
1 1/2"	1 1/2" Insulation - 1 1/2 lb. Density
2"	2" Insulation - 1 1/2 lb. Density

FEATURES

- Can be used with multi-head, automatic-feed, single-head, dual-head, and portable systems
- Cupped head prevents liner tears
- Provides strength and weld consistency
- Superior strength
- Unmatched product consistency
- Superior design helps reduce misfires
- Cupped head reduces jams and down time
- Available in a variety of sizes and packaging
- Reduces welding time
- Designed to provide complete sheet to pin fusion
- All Ductmate pins are electroplate galvanized
- All pins are 10 gauge
- Manufactured in the USA

Cupped Head:

Reduces jams and machinery down time while preserving the insulation

Contact Head:

Oversized head increases the welding surface, resulting in a reduction in misfires and superior strength

Point:

Point provides strength and weld consistency

Shaft:

Cold drawn weldable wire shaft for strength and consistency

Press On Hanger

DESCRIPTION

Ductmate's Press On Hanger have a unique Easy-Peel adhesive backing design so that there isn't any fumbling with the release paper. Every Press On Hanger is neatly packed for quick access and they take up about a third less storage space than loose packed hangers. Prevent injuries and speed up your operation with Ductmate Press On Hangers.

FEATURES

- Fasteners and self-locking washers are manufactured from low carbon galvanized steel.
- All spindles are 12 gauge. Other spindle lengths, gauges and materials are available upon request.
- Washers measure 1 1/4" X 1 1/8"
- Load per anchor should not exceed 3 lbs.
- Operating temperature should not exceed 150°F
- Application temperature should exceed 40°F
- Shelf life is estimated at 2 years if hangers are stored at room temperature and at 50% relative humidity.

MOISTURE DRAINS

- A fast, economical method of installing a leakproof drain in duct work and drain pans.
- The funnel is made of 12 gauge galvanized steel and won't deform
- Can be used on ductwork as light as 26 gauge, and no heavier than 20 gauge. Heavier duct gauges can't be pulled into a funnel shape.

INSTALLATION

1. Drill a 1 1/16" hole in duct
2. Insert threaded drain through drilled hole from inside of the duct
3. On the outside of the duct, insert the funnel on the threaded drain
4. Screw the nut on the threaded drain until the duct wall is drawn into a funnel shape.
5. Use drain cap when needed.

DIMENSIONS

BANGIT™ DAMPER BLADE ASSEMBLIES & HARDWARE

Damper Assemblies

- Air flow control assembly for round duct
- Quick, safe, and easy to install.
- Ideal for retrofitting duct systems
- Available in standard sizes from 3" – 24"
- Completely assembled ready to install.
- 24 ga. Damper blade, 2 - Heavy gauge spring loaded hardware, handle, wing nut & washer.
- 3" one Blank Stationary Hardware.
- Larger sizes and alloys available upon request

Bang-it Hardware components

- Heavy gauge galvanized steel hardware
- Precision tooth Easily pierces damper blade for quick assembly
- Spring loaded and stationary hardware available for 3" dampers.

Description	Ordering Information		
	Part Number	Box Quantity	Box Weight
<u>Spring Loaded Hardware</u> Precision stamped galvanized damper clip. Superior spring loaded design for labor saving installation. Engineered with an oversized point for increased strength.	BDHBSC	1,250	77 Lbs.
<u>Stationary Hardware</u> Precision stamped galvanized damper clip, with threaded post for easy installation. Engineered with an oversized point for increased strength.	BDHBC	2,500	71 Lbs.
<u>Flat Washer</u> Stamped from galvanized steel for increased strength and corrosion resistance.	BDHBW	10,000	43 Lbs.
<u>Damper Blade Handle</u> Stamped from galvanized steel for increased strength and corrosion resistance. Allows for fast and easy adjustment of the dampers. (BDHBH is used on Spring Loaded Hardware)	BDHBH	2,500	82 Lbs.
<u>Wing Nut</u> This galvanized steel wing nut is die cast for superior strength and reliability.	BDHBWN	3,000	54 Lbs.

HiTex™ self-drilling fasteners

Part Number: WSDS31034

Box Quantity: 5000

- Recommended for all sheet metal applications
- High-hat hex head fits snugly into provided chuck
- Extra wide serrated washer reduces walking and stripping
- #10-16 screw
- Locking serrations
- #3 S-Type Point
- Complies with SAE-J78
- Chromate finish for corrosion resistance

PROscrew

Hex Washer Self-Drilling

Quickest HVAC Flange Fastener In The Industry!

Features:

- Lightweight - only 10.5 lbs
- Depth of drive adjustment
- 360° adjustable exhaust deflector
- Uses Smooth Wire-Collated Coil Nails
- Anti-Double fire mechanism
- Shock absorbing comfort rubber handle
- Belt clip
- Used with DM25,35,45 (Use Repeater 6100 for Spiralmate, Econonflange, and Ventmate)
- Operating pressures: 70-120 psi

Fastener Specifications:

- Smooth Wire-Collated Coil Nails: 3/4"
- Shank Diameter: .100"
- Shank Type: Helical/Gripshank

Ordering Information:

- Part Number: RPF3000
- Pins Per Roll: 200
- Rolls Per Case: 15
- Pins Per Case: 3,000
- Pin Length: 3/4"

SAVE TIME & MONEY WITH TOOLS FROM DUCTMATE

Ductmate® System Alignment Grip Tool

Reduce onsite installation time for rectangular duct. This tool uses the holes in the Ductmate corners to quickly align and compress mating ductwork allowing for fast and easy installation.

Part Number:
AG2000

Spiralmate® System Alignment Grip Tool

These customized vise grips work in conjunction with Ductmate's Spiralmate system to quickly align mating duct sections, reducing time manpower and cost. This tool is a must for any large installer of round duct.

Part Number:
AG2001

Ductmate System Cleater® 1 and 2 Tools

The Cleater 1 is the ideal tool for attaching cleat to Ductmate Flange joints where spacing is not an issue. Use the Cleater 2 in conjunction with 5/8" deep-wall socket, extensions, and wrench (not included) to attach cleat in hard-to-reach places.

Part Numbers:
CLEATER1 / CLEATER2

Spiralmate® System Nut Runners

Custom deep dish sockets designed to open and close the Spiralmate Closure Band. Available in two sizes 7/16" small and 9/16" large.

Part Numbers:
NUTRUNS/NUTRUNL

Ductmate System Versa-Cleater Tool

Versatile tool to attach the Ductmate Versa-Cleat to Ductmate 35, 45, or TDC (and some TDF) profiles.

Part Number:
VERSA TOOL

Snapper Cleat Tool

The Snapper1 is the ideal tool for attaching cleat to the WDCI Flange, or TDC/TDF Cleat to the flange profile.

Part Number:
Snapper1

PolyArmor™ Tools

High speed mechanical rotatory knives, available for purchase from Eastman®, for fast and effective cutting of all sizes of PolyArmor. The Cardinal 534 is Eastman's lightweight model and provides lightweight maneuverability with plenty of cutting power. The Falcon 548 equips Eastman's Cardinal model 548 with a special baseplate and handle to work with the Falcon guide track making straight cuts fast and easy. Both models are capable of cutting any thickness of PolyArmor.

Cardinal 534

Falcon 548

Cable Shark® System Tools*

The Cable Shark Cable Cutter (HFWRC) and the DeCable Shark (CLTOOL1020) were both engineered to making working with the Cable Shark Cable Hanging System easier. The cutter was specifically designed to cut WR10 and WR20 Cable Shark Cable without causing the cable ends to fray. The DeCable Shark easily releases the locking boar on CL10 and CL20 Cable Sharks allowing for adjustments to be made.

* Please see detailed Cable Shark Installation Instructions before using Cable Shark or Cable Shark Tools.

Part Numbers:
HFWRC/CLTOOL1020

BULLET SELF SEALED DUCT FITTINGS **BAND**[™]

From **DUCTMATE**[®]

NEW!

The Bullet Band is a full line of self-sealing round duct connectors and fittings for the commercial HVAC industry. Consisting of a “Triple Lipped” EPDM gasket, the Bullet Band provides a clean, superior seal and enhanced performance, while reducing the overall installed cost.

Performance Attributes:

- 10” W.G. Positive
- SMACNA Leakage Class 3
- -20° F to 212° F
- ASTM E84 Flame and Smoke
- G90 Galvanized standard
- Sizes 3” - 24”
- Fittings available without gasket

3-Lip Gasket

Duct-Mounted Register

Gored 90° Elbow

Stamped 45° Elbow

Saddle Tap

Balancing Damper

Concentric Reducer

One Source.

Infinite Solutions.

Rectangular Connections

We started our business building better connectors, and we continue to excel in this area. The Ductmate '25'/'35'/'45', WDCI J&H, PROflex, and Slips and Drives are the gold standard in the industry when it comes to rectangular ducts requiring a rigid, near leak-proof connection. Time has proved just how durable these connectors are.

Round Connections

We started our business building better connectors, and we continue to excel in this area. Spiralmate, ECONOflange, Quick-Sleeve, and PROflex are easy to install, virtually air tight and very cost efficient. In most cases, no end prep of the ductwork is needed.

Sealants And Adhesives

This family of products includes duct sealants, adhesives, and gaskets. Formulated for indoor or outdoor use that function well in low, medium and high pressure systems. Each is designed to solve problems, such as mildew resistance, UL specs and flexibility.

HVAC Components

These products and tools are problem-solvers and simply make it easier to get the job done. They are used to reduce the noise the system generates, direct air flow, reduce leakage and remove excess moisture.
